PROFESSIONAL SUMMARY

Data and Business Intelligence Analyst with experience in dashboard development, reporting automation, data integration and operational process optimization. Strong background working with Power BI, SQL, Oracle, Azure Databricks, Dynamics 365, Dataverse and Looker in administrative, financial and operational environments. Experienced in transforming large-scale datasets into actionable business insights through analytical modeling, KPI development and automation-driven solutions. Participated in projects focused on operational monitoring, financial reconciliation, executive reporting and process standardization.

CORE SKILLS

Data & BI	Power BI, DAX, Looker, KPI Design, Dashboard Development, Executive Reporting
Databases	SQL Server, Oracle SQL, Oracle DWH, PostgreSQL, Supabase
Platforms	Azure Databricks, Dataverse, Dynamics 365
Automation	ETL Processes, Data Modeling, SQL Automation, Data Integration
Development	C#, .NET, WinForms, JavaScript, Bootstrap, HTML, CSS, Python
Business	ERP Analysis, Process Optimization, Operational Analysis

PROFESSIONAL EXPERIENCE

BIT S.A. — ERP Analyst / Implementation Specialist

2026 – Present

Participation in ERP implementation projects for administrative, accounting and operational processes. Functional analysis, operational validation and support for business process adoption in SQL Server and Azure environments.

Dirección General de Rentas de Córdoba — Senior Data Analyst / BI Analyst

2022 – 2026

Developed executive and operational dashboards using Power BI and Looker. Worked with Oracle Data Warehouse, Azure Databricks, Dataverse and Dynamics 365 environments. Participated in reporting automation, financial reconciliation processes and analytical modeling initiatives. Developed SQL-based automation processes that reduced manual tasks and operational times by more than 50%, including financial validation workflows reduced from monthly cycles to approximately one week.

Telemercado S.R.L. – Dirección General de Rentas — Administrative Support / Customer Service

2018 – 2022

Administrative and tax-related customer support, operational assistance and incident resolution.

Córdoba Football Americano A.C. — President

2024 – 2026

Institutional leadership, operational planning, multidisciplinary team coordination and organizational communication.

FEATURED PROJECTS

Integrated Executive Dashboard — Dynamics 365

Unified analytical migration from Planner to Dynamics 365 using Power BI, star-schema modeling and DAX metrics for strategic reporting.

Operational Dashboard — Trauma Emergency Service

Clinical-operational dashboard developed in Looker for patient, intervention and medical case analysis.

Funds Integration & Reconciliation

Financial validation and operational reporting processes using SQL, Oracle and Power BI for multiple agreements and fund distributions.

Tax DataMart — Azure Databricks

Construction of a tax-oriented analytical layer using Azure Databricks, SQL and Delta-based processing over large-scale datasets.

EDUCATION**Systems Analysis Degree — IES21**

Expected graduation: November 2026
